

CPA LARGE AXIAL FLOW PUMP

大水量軸流幫浦

SERIES I

CL-150A
(5HP, 6")

CL-200A
(7½ HP, 8")

CL-250A
(10HP, 10")

CL-300A
(15HP, 12")

FEATURES

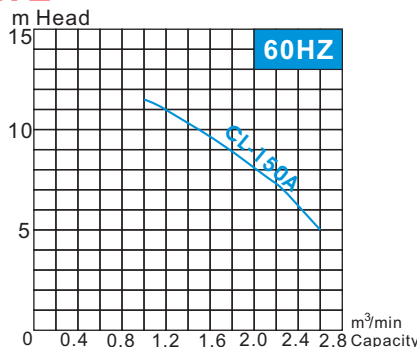

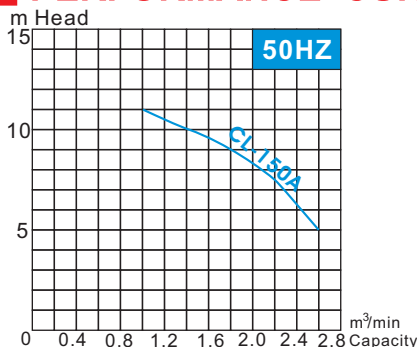

1. Axial flow design specially for large volume water flow.
2. Easy operation and no need high voltage device, more economic and almost no vibration & noise.
3. Body cover and motor frame are made of Stainless Steel SUS304. Impeller, inner upper cover and inner lower cover are made of Bronze Copper.
4. Easy installation and dismantling, energy saving and low maintenance.
5. Cable length : 10M.

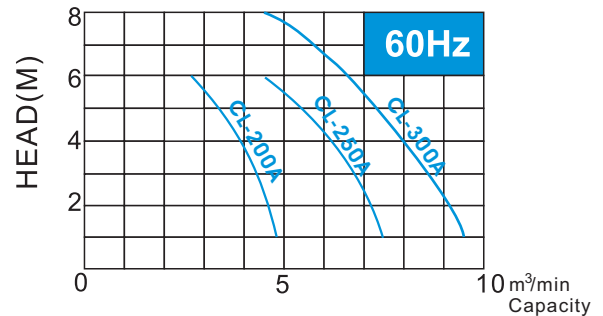

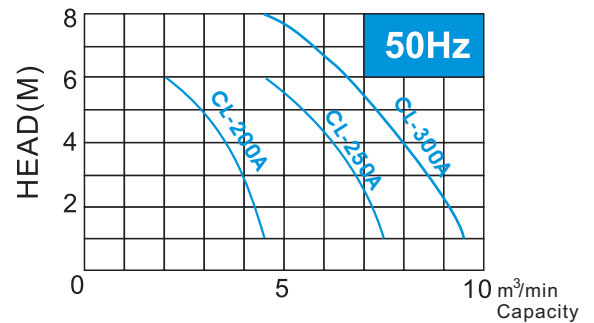

APPLICATIONS

1. Water pumping from streams, lakes, reservoirs, channel water, fishery pond.
2. For large volume water applications in aquaculture and agriculture water intake and drainage.
3. Flood control.
